WILLIAM NURSERY & LANDSCAPE CO.  
PARINA, ILLINOIS

We, the Graves family, have been actively engaged in growing Nursery Stock for over fifty years and for several years many of our older customers ask us to grow Apple, Peach, Cherry, Pear and Plum into larger, older, Bearing Age sizes--something that is ready to start bearing immediately after replanting. Our large 4 yr. old trees have already bloomed in the Nursery. They will run from 5-6' in height. The 5 yr. old sizes have bloomed two seasons in the Nursery and will run 6-7' in height. The 6 yr. old size--many of these trees have already borne some fruit in the Nursery row and will run from 7-9' in height and should start bearing very soon after being replanted, if the weather is seasonable. We guarantee that these larger size trees will all be State Inspected, freshly dug and are in a good healthy growing condition, when shipped from our Nursery.

The following applies to the Apple Trees only: we will also cut back 3-4" out of the top of each tree before shipping, if you wish us to and will mention same on your order. Any large tree must be properly headed back in order to get a well balanced top and insure the growth the first season. This will eliminate a lot of the express or freight charges on your order.

Ordinarily, our price would be a \$1.00 for each year they are old. The 4 yr. old--\$4.00; 5 yr. old \$5.00; the 6 yr. old, bearing size \$6.00. However, for the next thirty days we are putting on a special sale cutting the price far below wholesale. We will be glad to make shipment now, if weather conditions permit, or will be glad to book and hold same for early Spring shipment.

APPLE: ✓ McIntosh, ✓ Red and Yellow Delicious, ✓ Black Winesap, ✓ Black Jonathan, ✓ Early Harvest, ✓ Turley, ✓ Anoka, ✓ Wealthy, ✓ Grimes Golden and ✓ Gano.

	EACH	IN LOTS OF 5 EACH	IN LOTS OF 10 EACH	IN LOTS OF 25 EACH
4 yr.	\$2.50	\$ 2.25	\$ 2.00	\$ 1.50
5 yr.	3.00	2.75	2.50	2.00
6 yr.	4.00	3.50	3.25	2.75

The following trees we can supply in only 4 yr. and 5 yr. old trees at the same price as Apple:

	Three for	Ten for
Medium Grade	\$ 1.50	\$ 4.00
Bearing Age	2.50	6.50

Add 25¢ per tree for packing charges on all four, five and six year old Bearing Age trees. There will be no charge for cutting back the tops, if you so desire us to do so.

Allow us to remind you that our supply of these larger grades of Fruit Trees and we strongly urge you give this your immediate attention. We can ship now, providing weather conditions are favorable, or we can book and hold your order and ship whenever you desire this Spring. In considering these larger grades, we ask you to keep in mind the facts that you will be gaining several fruit crops by planting this larger grade of stock to say nothing of the time and labor involved in cultivation of the smaller younger grades to get them into the bearing size. So, why not let us have assumed this care and cultivation and you order the larger soon ready to bear grades? May we have the pleasure of serving you further?
